

Introduction

Anyone who has ever spent a quiet day on the weekend watching junk TV has seen Blind Date, The 3rd Wheel and other campy first date shows. Those never seem to get into anything exciting and if something fun happens they pixelate it or black it all out! Along comes Blind Date Bangers to fill that void with their own version of these cute dating shows starring hotties who don't mind leaving the cameras on during the fun moments!

Adult Review

Blind Date Bangers is a one of a kind website that helps bridge the gap between guilty-pleasure television shows and sexy porn action. Each episode on the site features all the suspense and buildup of any of those MTV, Lifetime and UPN shows but when the clothes start coming off and things heat up, this version of those shows keeps the cameras on and the action pumping!

The first thing we need to get out on the table is the fact that Blind Date Bangers is no longer updating. The site has 30 scenes available but it has not added any new ones in a while. The site is one of dozens of sites available on a huge network that is included in your monthly membership. From time to time they added some new sites and discontinued other ones. Unfortunately this is one of the sites they decided to put on the shelf.

Still, if you join Blind Date Bangers you get access to all of the other sites on the network which means 1,538 complete original and exclusive scenes network wide and another 1,632 bonus nonexclusive scenes as well. We suggest you take a look at the site and see if you like the other included sites as well, if you signup it's because you want to get in on the entire collection of content.

Porn Summary

It's too bad they stopped updating this site. Blind Date Bangers had a unique take on hardcore action and it did a good job of mixing the comedy and the sex into something well worth watching. There are still some scenes I go back and watch on my hard drive when I want a chuckle while I knuckle.

Review Rating

Sam says *'The network access this site comes with is HUGE and active but the site itself doesn't update any more.'*
