

Introduction

If it feels good, then why stop? That's a question the cut and well-hung twink at Creampie Guys keep answering by continuing to fuck their partners buttholes until they blow their warm sticky loads deep inside creampie style! You won't miss a single leaking drop, because this site offers full HD video that makes you feel like it's your own seed that's spilling down his leg!

Adult Review

Another fantasy site that strays from the safe sex mantra is Creampie Guys. While this kind of behavior really should only be practiced by long term couples... or never at all, it is impossible to deny how hot it looks on camera!

 There are 16 scenes at Creampie Guys and every video is available in a crystal-clear 1280 x 720 full HD mpeg. The majority of the scenes are boy-on-boy, but a few group-sex updates are thrown in for good measure. The HD videos are only available as a full-length download, so if your connection speed or hard disk space isn't fast or big enough to handle them, you'll have to choose from three other lesser-quality formats.

 A nice touch is including a portable .mp4 format in case you like to watch messy assholes on the go. And none of the downloads are protected by any kind of DRM. The videos are also available via a nice and clear 1024 kbps stream from within an embedded flash player.

 Each of the episodes of Creampie Guys also includes a picture set of high-quality 800 x 533 resolution scans. Most of the updates contain about 100 pictures. The first few of each set are softcore posing, but most of the set focuses on the bareback fucking, with a good emphasis on the guy's filled asshole at the end. You can select to view 20 pictures at a time, or put all of the pictures on a single contact sheet to speed up your viewing of the sizzling gay sex.

 The main members page is a bit confusing. There are plenty of extra bells and whistles to keep you coming back to the site, but the exclusive content area isn't that obvious to a first-time viewer. So I'll save you some time and tell you to head right over to the Featured Series tab. Once there, the 16 exclusive scenes can be previewed in one of two ways.

 The quick preview option gives you a single thumbnail, the episode number, and the video runtime. If you prefer to get right to something you'll like, then a more detailed preview that shows you 10 thumbnails of the action, a blurb about the scene, the names of the guys in it, and the upload date may be more your style.

 Once there, you'll notice that the last update was September 2007. The Creampie Guys site tour clearly and boldly states that there are weekly updates, so this is very misleading. There is no mention of an update schedule, or a hint about when a new scene will be added.

 What takes the sting out of this is the huge network access that is included with a full monthly membership for only \$9.99 per month! Full members are granted access to 21 other gay sites that feature both exclusive and non-exclusive all-male action. For bi-guys, you'll also be able to watch a lot of straight action in a variety of different niches.

 You may see this same site reviewed elsewhere with a much higher price tag, we got them to drop their price for all of our members as long as you signup through the BiReviews website!

Porn Summary

There is also a lot of straight bonus content that consists mostly of DVD scenes that can be downloaded. There are a few gay DVD scenes and picture sets, but the vast majority is straight content. If you do find something you like, then the full network has been indexed and is fully searchable by DVD series, theme, and star.
