

## Introduction

What's better than a hot wet sloppy kiss between gay lovers? A shared mouthful of cum, of course! At Cumswap Guys, watch in full HD video as young cut dudes fuck hardcore before cum swapping the fruit of their loins with each other to complete the moment. It's unsafe sex in real life, but in these fantasy videos, sharing is caring!

## Adult Review

There are currently 19 exclusive episodes available at Cumswap Guys. Almost half of the scenes feature all boy threesomes, and all of them feature oral cumshots that get swapped among all of the scene's models. All episodes contain both video and picture content. All 19 videos are available in full-length HD mpeg2 format (1280 x 720, 3096 kbps), and are about 20 minutes in length. And the sight does a great job of getting up close and personal as the guys snowball large loads of cum from each other's mouths. You can practically smell the mix of semen and saliva, that's how real it looks. If you're not well equipped to handle these large downloads, you can download the same full-length video in three lesser quality formats, including a portable .mp4 file to playback on an ipod or PS3. You can also opt to stream the video right from an embedded flash player at a crisp, clean 1024kbps. All of the photo sets at Cumswap Guys contain at least 100 pictures, and some have over 200. The resolution is pretty nice at 800 x 533, and you can view 25, 50, 75, or ALL of the pictures on a single contact sheet. The ALL option is really nice, since it lets you pick the pics you want really fast. The sets start off with a few snaps of the studs as they strip down to their underwear and less, but most of the photos are stills of the gay fucking. And the site really does the snowballing justice, because each set has a lot of closeups of the mouth-to-mouth cum swaps, so you can see the spit and sperm mingle to become one. The site design does leave a bit to be desired. The main members page can be confusing to a first time visitor, because there is a lot of extra content that is available from the toolbar and framesets. After a few tries, you should be able to figure out that the exclusive Cumswap Guys scenes are stored under the Featured Series banner. Within that section, the exclusive scenes are available for previewing in two different ways. You can choose a really quick view that shows all of the available scenes on a single page, with the episode number, video runtime, and a single thumbnail as identifiers. If you want to see a bit more of the scene, then the full preview option tells you the names of the twinks that star in the scene, the date the scene was added to the site, and a small contact sheet of 10 thumbnails that represent the gay action. In full preview mode, you'll probably notice that Cumswap Guys was last updated in September 2007. There is no mention of future updates, and the tour promises that the site is updated on a weekly basis. There is no excuse for this, and if no more exclusive updates are planned, then that info should be removed from the tour. But even though the exclusive updates have stopped, full members are able to view bonus content that is updated daily, and are also able to access a huge network of sites that also feature exclusive content. The exclusive portion of the network features 21 other gay websites, and a lot more straight websites. Bi-guys will really benefit from this network, because the daily bonus content that is added is about 95% straight. A rotating weekly calendar allows you to preview the next week's list of upcoming updates, and you can also go back in time to see what was updated last month. Both the exclusive and bonus content has all been fully indexed by DVD, niche, and starlet, so if you like something or someone specific, chances are a simple search will put it right at your fingertips. Full membership to Cumswap Guys normally cost \$24.95 per month if you go there directly, but as a BiReviews reader you get a big-time discount and can become a member for just \$9.99 per month as long as you join through the free preview on our website!
