

## **Introduction**

Of course it's not surprise that all guys hate condoms, but some might be surprised that lots of girls do too. A prick wrapped in synthetic rubber feels kinda fake. It definitely feels nothing like having a big warm cock shoved deep inside you with nothing in between. So if you're not in a type of situation that allows you to personally enjoy sex with no condoms, then Got Bareback can be a great temporary gay sex fix.

## **Adult Review**

One of the benefits of a monogamous gay relationship is the comfort and thrill in engaging in hardcore bareback sex with your gorgeous lover. Unfortunately not every gay man finds himself in this perfect situation, and sometimes caution trumps desire and out comes the condoms. At Got Bareback, you'll be able to at least see a pair of sexy studs enjoying one another's hard bodies with pure skin-to-skin action.

Right now there are only 4 gay bareback themed DVDs available at Got Bareback, which have been separated into 16 full length scenes. Most of the content features more intimate one-on-one bareback sex sessions, but there's also a hardcore threesome thrown in for some variety. The cast is also nicely mixed up, and you'll see plenty of fresh-faced twinks and muscle-bound hunks.

The video interface has been designed with a visual-oriented surfer completely in mind. Even though no downloadable screen shots or high quality picture sets are available to help preview each scene, every video clip has been separated into discrete pieces and joined together by thumbnails that act as start/stop points. You can then begin and end the scene at whatever point you like. So if you're only interested in the bareback sex, you can skip all of the foreplay and get right to it.

Every Got Bareback video can be downloaded as a DVD quality MPG, or as slightly lower resolution WMV clips. None of them are protected with DRM, and with the small size of this site it pays to download everything and watch it whenever you can. If you want a quick fix, you can even stream the videos using a flash based player that runs straight from your browser.

You're offered a variety of ways to sign up for Got Bareback. Short term trials and discounted multi-month options are available, as well as two different monthly choices. Signing up for the platinum level membership is definitely what you want to do, since you'll also be allowed to access plenty of other gay and straight porn sites that are listed right next to this review. There are just about 200 gay DVDs that the gay sections offer, and almost 1000 more straight scenes in case you're a bi-guy and that interests you too.
